There is space for car parking in front of the restaurant and on the side.

With land prices in the area of between 5 million to over 15 million Baht per Rai for land only, this property is an absolute steal at only 12,500,000 Baht for both land and house.

This is the perfect opportunity for an entrepreneur to set up their own business, restaurant, bed and breakfast or anything along those lines for when the city and country will eventually open up to tourists again and there will most definitely be a huge demand for well located holiday rentals and restaurants.
